Invitation for Proposals for Purchasing Emission Reduction Credits

(Date of Notice Publication: 9th March 2026)

Alternative Energy Promotion Center (AEPC) is a government institution under the Ministry of Energy, Water Resources and Irrigation (MoEWRI) mandated for promotion and development of renewable energy and energy efficiency in Nepal. AEPC has developed a well-diversified portfolio of carbon projects using different instruments from renewable energy projects. AEPC succeeded in developing and registering five Clean Development Mechanism (CDM) Project Activities (PAs) four project activities related to household biogas and one micro hydro technology and three CDM Program of Activities (PoA) Improved Water Mills, Household Biogas and Improved Cook stoves Technology. Four Biogas PAs and PoA are registered in the Gold Standard Registry too. Similarly, AEPC has registered “Ecozone Improved Cooking Stove (ICS) Project in Nepal” in VERRA registry. Being the projects implemented in the least developed country, the PAs and PoAs, apart from reducing GHG emissions from baseline, offer additional sustainable development benefits to the users. AEPC would like to sell emission reduction (ER) credits and hereby invite proposals from interested entities/organizations for purchasing ER credits issued/planned to be issued (Tons of CO_{2eq}) in different vintages as shown below:
